

Dapper (feat. Anderson .Paak)

Domo Genesis

[Intro: Anderson .Paak & Domo Genesis]

It just needs that... uh, that uh....

Yeah

Yeah! Okay (ooooh)

Yeah yeah[Chorus: Anderson .Paak]

Hold (hold) that (that) light (come on now)

(Hold out!)

Smoke (smoke) that (that) fire (come on don't stop 'till you)

Hold (feel it) that light (baby you got to, hold on)

Smoke (smoke) that (that) fire[Verse 1: Domo Genesis]

Baby we can dance if you like

Shake that pretty ass on the flash of the light

Off of one glass, you can imagine the hype

Trying to figure out if I'm being in your plans for the night

Cause I haven't felt this good in weeks

Got a fresh cut now I'm looking for the freaks

Fresh car wash, so don't put your hand on the Jeep

Use your etiquette, and bring your brain sense to the beach bit

All around the world they keep running

Shawty wanna hold my hand, it ain't nothing

Mariah said if it's workin', time to say something

And they tell me I'm out of my mind, I ain't budging

Sorry if I'm so overzealous

Cause I haven't felt no energy like you on this planet

So yeah, put your number in my head

And fill that bitches [?][Chorus: Anderson .Paak]

Hold (hold) that (that) light (come on now)

(Hold out!)

Smoke (smoke) that (that) fire (come on don't stop 'till you)

Hold (you feel it) that light (baby you got to

Hold on)

Smoke (smoke) that (that) fire[Verse 2: Domo Genesis]

Really good, nice to meet ya

Maybe we could smoke a little Indonesia

Shake up the world like a GOC

You [?] so strong you don't need no features no

Little Jimmy, let's park at last

Let's keep it [?] my heart that fast

I watch whoever start that gas to walk a little

You're either gonna park or crash
Let's make a memory
Walking down a similar path, I feel the energy
Or maybe it's the way I'm feeling from all this Hennessy
I'm way, way bigger than what they tend to be
And you could be my Marilyn Monroe
I'm John Kennedy, you know it
You feel it
Cause I haven't felt this rhythm in a minute
Get it fit, until we fall
Got arches, so I hit it
With springs, I'mma fall
If I want it I'mma get it[Chorus: Anderson .Paak]
Hold (hold) that (that) light (come on now)
(Hold out!)

Smoke (smoke) that (that) fire (come on don't stop until)
Hold (you feel it) that light (baby you got to, hold on)
Smoke (smoke) that (that) fire[Verse 3: Anderson .Paak]
Now I could turn a pussy to a kitty pool
And I could swim around until my fingers prune
But if you stick around I'll probably send it to 'em
If you stick around I'll probably roll one up right now
Can a nigga grove?
Come on![Bridge: Anderson .Paak]
Smoke (smoke) that (that) fire
Smoke that fire[Instrumental outro]
