Come Back Down

Sam Riggs and The Night People

It always starts out fine
Simple hello darling, nice to see you.
It's been too long since he last time
You'll say that you missed me
And I'll just crack a smile,
Pull your body close to mine
Just a little while cause,
I know, you know, it's only temp
We know, it won't be long
Before you fly

Go ahead and let me down just one more time
And watch me crash and burn
I'm never gonna learn my lesson
No matter how hard I hit the ground
And I'll be there to catch you
when you come back down

I'm so tired of dancing, to the same ole song
Baby when you play my heart strings
I cant help but sing along
So let's just draw the curtains
Let this all play out
Way it has a 100 times
before it's got me thinking

This love,
Is enough,to hold me til the next time
So just look in my eyes

Before you fly
Go ahead and let me down just one more time
And watch me crash and burn
I'm never gonna learn my lesson
No matter how hard I hit the ground
And I'll be there to catch you
when you come back down

Baby when you fly
Yeah, Go and let me down

just one more time
Watch me crash and burn
I'm never gonna learn my lesson
No matter how hard I hit the ground
I'll be there to catch l you
Baby when you fly,
Go ahead and let me down just one more time
Oh watch it break my heart
I'm never gonna learn my lesson
No matter how hard I hit the ground
And I'll be there to catch you
when you come back down.
