### Paranoia

(John Woloschuk)Oooh, lately when I'm talkin', I've been talkin' to myself  
My friends say they don't notice ... but they do cos' I can tell  
I wake up mad every mornin' an I go to bed mad at night  
My mind ain't functioning poorly but it sure ain't feelin' right  
No it sure ain't feelin' right .I wen to see my doctor, I told him I'd been feelin' blue  
He shook his head and simply said, "Ain't nothin' he could do"  
Well my head aches with apprehension till I can't take any more pain  
If I don't get some attention soon I think I'll go insane  
Paranoia I feel ya creepin' through my soul, yeah  
Paranoia I feel ya taking complete control, oh  
Paranoia You got me runnin' all the time, paranoia  
Paranoia Oh what a pitiful state of mindDon't know how long I've been this way  
My mind is so confused  
It seems the whole world's after me  
No matter what I doSOLO  
No, I can't remember when it's ever been this bad  
But lately I've felt feelings that I never knew I had  
Delusions of persecution haunt me, my one companion is fear  
And there's always someone behind me when I check my rear-view mirror  
You'd better check your rear-view mirror  
Paranoia I feel ya creepin' through my soul, yeah  
Paranoia I feel ya taking complete control, oh  
Paranoia You got me runnin' all the time, paranoia  
Paranoia Oh what a pitiful state of mind
