

Empty Shell

Cat Power

Advisory - the following lyrics contain explicit language:

All that is left is an empty shell
Of my heart that is crushed
I don't never wanna see
What my mind has seen when you loved meEvery night
Every night alone with you
Every night alone nowWhen she sits on your lap try to pretend to laugh
When she does stupid things just like I used to do
Do not hate her, don't you even try
For to leave her is to love her the same as you and II, I love you
And I miss you too
I really do love you
And I really miss you tooBut I don't know you
And I don't need you
And I don't want you anymoreEvery night
Every night alone with you
Every night alone now
