

Rise Above

Yaakov Chesed

I'm standing here now
This is what you see
The image you call human
A fallacy called me
I'm holding onto hope

Reaching out for love
Searching for my purpose
The way to rise above
I look inside and see my imperfections
I know that I can be so much more
I know that I know I am only human

But my soul cleaves for so much more
If there is so much more to me that I don't see
And searching for my purpose is harder than it seems
Help me show me I need you now
Hashem if im a reflection of you
Help me figure out

How to release my imperfections
And finally see that I'm so much more
I know that I know I am only human
But my soul cleaves for so much more
Now I can release my imperfections
And finally see that I'm so much more

I know that I know I am only human
But my soul cleaves for so much more
