

# Lean Into the Wind

## Dirty Dave Osti

Bad rain gonna breach your levee walls gonna rise up to your head  
blacked out and you got nowhere to fall not a savior not a friend  
look into the eye yeah, watch it spin

when the hurricane blows you gotta lean right into the wind.No time to take a fast train out of town yeah gotta  
do the best you can

reaching out for something that you thought was real  
another ruse another scam

look into the eye yeah, watch it spin

when the hurricane blows you gotta lean right into the wind,  
into the wind  
in through the wind

let it blow.Bad rain gonna breach your levee wall gonna rise up to your head  
blacked out and you got nowhere to fall not a savior not a friend  
look into the eye yeah, look into the eye yeah  
you better lean into the wind  
you gotta lean into the wind  
look into the eye yeah.
