

Fine Fine Fine

Status Quo

I never knew of heartache 'til I messed with you
I sure do sitting here and feeling all the pain
I just can't sleep now 'cause I'm hoping that you'll keep
Another heartache for my heart againMy mama taught me how to read from the good book
My papa taught me how to win and lose a game
They went down smiling 'cause they left me all they had
Plus another heartache for my heart againBut now it's fine, fine, fine 'cause you're with me all the time
There to care and share the things I do
And now it's fine, fine, fine 'cause you're with me all the time
Everywhere and even nowhere tooI used to make the late nights on a cheap weekend
But all the women there were just a crying shame
I heard them saying that they didn't think I'd stop
For another heartache for my heart again
