

Say My Name

[Stevie Hoang](#)

Stevie Hoang
Say my name
Make you say my name
Oh baby, I want you
I love the way you're grinding it up on me
Your body's making moves that I can't believe
Whisper in my ear, tell me what's your name
I ain't gonna frown, I'm so glad you came
I'm seeing lot of players got their eyes on you
I better move fast, gotta make my move
Girl I know a place not so far from here
If you say the word we can disappear
I can tell by the way that you touch me
All the things that's on your mind
I can see in your eyes that you want me, baby
Girl tonight I'll make you say my name
When I give it to you, baby, say my name
When I get up in you, baby, say my name
I won't tell nobody, baby, say my name
What's my name?
Baby, say my name
Oh that's how I like it baby
Say my name
You know that it drives me crazy
Say my name
I won't tell nobody baby
Say my name
What's my name?
Got the S5 waiting by the door
A couple more shots and we good to go
Girl I'm feeling you and I just can't wait
We could pop a bottle, take it to my place
In the back of my whip getting so freaky
About to do things that you won't believe
Shawty slow it down 'cause we almost there
Pull up to the gate, let's take it upstairs
I can tell by the way that you touch me
All the things that's on your mind
I can see in your eyes that you want me, baby

Girl tonight I'll make you say my name
When I give it to you, baby, say my name
When I get up in you, baby, say my name
I won't tell nobody, baby, say my name
 What's my name?
 Baby, say my name
 Oh that's how I like it baby
 Say my name
You know that it drives me crazy
 Say my name
 I won't tell nobody baby
 Say my name
 What's my name?
 Girl you got me thinking I'm falling in love
The way you put it down I just can't get enough
 And when it's over we'll go again and again
 Girl I ain't gonna stop until you say my name
 Oh girl
 Girl tonight I'll make you say my name
 When I give it to you, baby, say my name
 When I get up in you, baby, say my name
 I won't tell nobody, baby, say my name
 What's my name?
 Baby, say my name
 Oh that's how I like it baby
 Say my name
You know that it drives me crazy
 Say my name
 I won't tell nobody baby
 Say my name
