

Bodies

Juelz Santana

We pull it down (We pull it down), we give it up (we give it up)
We looking down (We looking down) cause we so up (cause we so up)
We pull em down (We pull em down), now picked em up (now picked em up)
We looking down (We looking down) cause we so up (cause we so up)

Bodies keep on poppin up (poppin up, poppin up)
Cops wanna question us (question us, question us)
But we got nothing to discuss (to discuss, to discuss)
Just keep them bodies prollin up (prollin up, prollin up)

Ain't getting money can't get with us (can't get with us)
These niggas, they ain't with us (they ain't with us)
Heard you where's was Reese, she was quick to fuck (she was quick to fuck)
Can't trust niggas that's why is only us

And I live it up, (?)
Bodies getting drop
Police hot as fuck
We love stains, not give it up
Now you down and I'm up
Snitch niggas, give names up
When you (?) we put them things up
I never sweat chop, cause I'm the same one
We on your ass, ain't no letting up
We at the top, haters looking up
In a film with em niggas who give no fuck
And all my niggas wild as fuck
And fuck niggas be mad as fuck
And counting paper, a got paper cuts

We pull it down (We pull it down), we give it up (we give it up)
We looking down (We looking down) cause we so up (cause we so up)
We pull em down (We pull em down), now picked em up (now picked em up)
We looking down (We looking down) cause we so up (cause we so up)

Bodies keep on poppin up (poppin up, poppin up)
Cops wanna question us (question us, question us)
But we got nothing to discuss (to discuss, to discuss)
Just keep them bodies prollin up (prollin up, prollin up)

(?)

We pull it down (We pull it down), we give it up (we give it up)
We looking down (We looking down) cause we so up (cause we so up)
We pull em down (We pull em down), now picked em up (now picked em up)
We looking down (We looking down) cause we so up (cause we so up)

Bodies keep on poppin up (poppin up, poppin up)
Cops wanna question us (question us, question us)
But we got nothing to discuss (to discuss, to discuss)
Just keep them bodies prollin up (prollin up, prollin up)
