Siberian Nights

Twilight 22

You say things ain't right, it's cold as ice
But how'd you like to spend a Siberian night
He said, "Could it be the KGB
Or is it just my reality?"So you believe everything you see
'Cause you're watchin' the world on a color TV
You've got nuclear war, atomic rain
And nuclear war winter gonna freeze your brain, huhSiberian nights
Siberian nightsJump to the rhythm, break to the ground
But you can't do that when there ain't no sound
No sun, no light, no wrong or rightSiberian nights
Siberian nights
Siberian nights
Siberian nightsHey
(Work)
Hey
(Huh, huh)Hey
(Work)
Hey
(Huh, huh, huh)Huh, huh, huh, huhWork, work, work
Work, work, work, work
Work, work, work
Work, work, work, work
Work, work, workFree your brain and rock the world
Free your brain and rock the world
Free your brain and rock the worldFree your brain and rock the world
Free your brain and rock the world
Free your brain and rock the world
Free your brain and rock the worldSiberian nights
Siberian nightsYou believe everything you see
'Cause you're watchin' the world on a color TV
You've got nuclear war, atomic rain
And nuclear war winter's gonna freeze your brain, huhSiberian nights
Siberian nights
Siberian nights
Siberian nightsHuh, huh, huh, huh
