

# Black Shining Leather

## Carpathian Forest

[R.Nattefrost '94]Deep red,  
Face soaked in blood.  
Black shining leather.  
I fuck you up in sadistic intent.Who  
I plunge into the wastelands of my heart  
And left it there in ruins.  
The sun shines once a lifetime.I will leave you in the cold.  
In the dead of the night,  
Black leather and latex Queen,  
A lush of the world.The bitter taste of life,  
And the coldness  
of my heart.Cunt  
I plunge into the wastelands of my heart  
And left it there in ruins.  
The sun shines once a lifetime.
