

The Infernal Resurrection

Skeletonwitch

Destroyer of the righteous
Turn a blind eye to the fucking light
Submerged, entwined in the darkness
One with the demon insideInfernal resurrection
Earth born flesh twisted into this beast
Wretched, wicked, demonic
On the blood of the holy ones feedConfess to me all of your sins
Know your blood shall wet my hands
I long to be the ender of your lifeDeliverance, behold your serpent of salvation
Blasphemous, malevolent bringer of demiseThe stench of blood upon my breath
Through cruelty with no limits
Deliver you unto death
Now soon to be a corpseMy desires have turned to blood
I now condemn your flesh
Release you from this worldTake of your body
Drink of your blood
Forever abomination
Forever coldDestroyer of the righteous
Turn a blind eye to the fucking light
Submerged, entwined in the darkness
One with the demon inside
