

Minions of the Watch

Iced Earth

When he was born the elder gathered in the night
They gave him shelter, clothed him, fed him with insight
They taught him of the course of human and of Setian ways
Curriculum just shy the telling of the end of days
Minions gather round, round this child
Watch over as he grows, little does he know
This child is the one salvation
Fulfill the prophecy, bring about our destiny
As he grows his minions gather in his light
His future though not clear to him he holds the second sight
He has seen most of this world yet does not know his way
They will place him on the path to the end of days
Minions gather round, round this child
Watch over as he grows, little does he know
This child is the one salvation
Fulfill the prophecy, bring about our destiny
