

# Motion (feat. Tyree)

Yung Ice

they say beauty comes in all sizes and shapes right?  
cause i see that you're well rounded with a package full of surprises  
my eyes can't to see this everything a man could wish for in his dreams  
unfold your presence from mother nature i would hate if i had to replace ya

[Chorus]

girl the way you make me feel its like no one ever made me feel  
and girl i only came to chill and you gotta know that im keeping it real  
you know exactly what i want you know exactly what i need  
lets get it in motion  
lets get it in motion

[Verse 1]

let's get it in motion lets get it together  
it's me and you against the world we rocking forever  
they say birds of a feather suppose to flock together  
taking you under my wing girl for a lifespan  
gotta keep it honest not saying i can be the right man  
when we sexing never treat you like a one night stand  
i would be wrong if this didnt feel the right chance  
to give you my all you deserve it and more  
listening to that miguel make me wanna adore ya  
strengthen you up where you weak and let nobody destroy ya  
cause it's a sure thing that you're heaven sent  
i can't find nobody better just look at the evidence  
cause you're my little secret how long could you keep it?  
and never let em know never let em know  
cause we gone let it show we gone show

[Chorus]

girl the way you make me feel its like no one ever made me feel  
and girl i only came to chill and you gotta know that im keeping it real  
you know exactly what i want you know exactly what i need  
lets get it in motion  
lets get it in motion

[Verse 2]

you say yo man don't cheat cause you got faith biggie's ex wife  
jj and thelma can i show you a good time?  
put these words in yo ear like a q-tip  
now we bout to go on tour like a college field trip  
i buy what you want like a doctor's waiting room girl you gotta be patient  
how yo man balling he a damn free agent that wanna baller block me  
but i can find a way to move around em like a proxy  
ain't tryna drift yo man away content  
but i can play tow-truck and pull you like a car been in an accident  
told you if yo man do you wrong you know where im at  
waiting to step in like a tag team wrestling match  
now yo girl wanna do me like a favor  
she said i gotta spot in her heart pace maker  
when you ain't at the crib like oakland ima raider  
so come hop on this plan and tell yo man yo see him later

[Chorus]

girl the way you make me feel its like no one ever made me feel  
and girl i only came to chill and you gotta know that im keeping it real  
you know exactly what i want you know exactly what i need  
lets get it in motion  
lets get it in motion
