

# Only Son

## Shakey Graves

I'm a poet  
You're a thief  
Welcome to my side of the street  
Drink my wine  
Free the best  
We're all fighters In the revolution  
It's calling out your name  
It's a constitution  
And struggles all the same  
Who can you blame?  
The revolution It's our job  
We have no choice  
Chain the system  
Use your voice  
Don't look back, no regrets  
Strap your boots on It's a revolution  
It's calling out your name  
It's a constitution  
Struggles all the same  
Who can you blame?  
The revolution Ain't no stopping us today  
Better watch out  
You're in the way  
We're the children of the future  
Haven't your heard? 'Bout the revolution  
And it's calling out your name  
In a constitution  
And our struggles all the same  
Who can you blame?  
The revolution Ain't no stopping us today  
Better watch out  
You're in the way  
We're the children of the future  
Haven't your heard? 'Bout the revolution
