

# Wild Horses

Teena Marie

The first time I saw you, baby  
It was a lovely day in May  
And I remembered that somewhere I had seen you  
Many times before  
And I vowed to love you forever more  
Gee whiz, but you look so good to me  
And it's funny how it gets me everytime when we kiss  
A thousand different feelings cross my mind  
Touch me, and it don't take no time to make me over  
And it's plain to see that every little bit of you  
Lives inside of me  
Time after time, you give 'em to me  
Those butterflies got me spinning like a top I don't wanna stop  
Baby I'm, I'm like a puppet on a string, and  
Wild horses can't keep me away  
Wild horses can't keep me away  
Wild horses can't keep me  
Away from you my baby  
No chance, 'cause I'd travel fast through time just for you  
To be here with me blowing my mind  
And it's gonna take me about a thousand years baby just to let you know  
That this love will never die and  
No one could ever make me tell you goodbye  
Time after time you give 'em to me those butterflies
