Take It Home

Utopia

You can lead a horse to water
You can lead a lamb to slaughter, oh yeah
But the way she let me on her
Well, there ought to be a law girlBut it's all over now 'cause I'm free born
If you want my love then it's yours
My heart is my own
You can wrap it up and take it homeIf I take you for my lover
You might break my heart all over, ooh yeah
I can't stand to leave romances
When you fall you take your chancesBut I don't care now 'cause I'm free born
If you want my love then it's yours
My heart is my own
You can wrap it up and take it homeTake it home
Wrap it up and take it home
Take it home
Wrap it up and take it homeTake it home
Wrap it up and take it home
Take it home
Wrap it up and take it homeTake it home
Wrap it up and take it home
