

# Wide Awake

## Heartless Bastards

Wide awake  
Fear is now the only thing that's keeping me  
Wide awake  
With no evidence your new defense is useless  
You can find your way around it, the obvious truth  
Back when inebriant and ignorant and cruel  
I was spinning all around just waiting here for you  
To find your way in  
Hoping you find your way in  
'Cause I'm wide awake  
You are now the only thing that's keeping me  
Wide awake  
Yeah I'm wide awake  
Fear is now the only thing that's keeping me  
Wide awake  
You were brilliant turned hesitant fool  
  
You just have to look around you'll figure out its true  
That when inebriant you're ignorant and cruel  
And I'm the fool standing here waiting up for you  
To find your way in  
Hoping you find your way in  
[chorus]Fearing me obsolete...  
Thinking I should clear out my mind  
So I can't  
Hesitate, complicate, anything anymore  
It's a  
Slow defeat empty sheets look at me lying on the floor  
It's a  
Slow defeat empty sheets look at me wanting so much more  
[chorus]
