

Famous Last Words

Zeromancer

Kill your senses
You might be right
Hold your fire
I'll take you higher
Never drop
We'll never stop Tar for feathers
Blood for honey
Milk for money
Isn't it funny how it hurts
How it hurts You never see me make
The same mistake twice
You never see a tear
Coming out of these eyes You never see me beg
For another shot
And you never see me change
Into something I'm not
Famous last words Stare at someone
You used to know
Laughs at you
Turns around and fade away
If only I could see it that way Tar for feathers
Blood for honey
Milk for money
Isn't it funny how it hurts
How it hurts You never see me make
The same mistake twice
You never see a tear
Coming out of these eyes You never see me beg
For another shot
And you never see me change
Into something I'm not
Famous last words Kill your senses
It can't be right
Isn't it funny how it hurts You never see me make
The same mistake twice
You never see a tear
Coming out of these eyes You never see me quit
See me disengage
And you never see me spit

In your face out of rage
