

# Still Waters Run Deep

## The 69 Eyes

Every time I hear you breathe  
In the still night next to me  
And your innocent heart to beat  
I feel so complete Just let me listen to you gently breathe  
No words do we need  
Let your innocent heart to speak  
Still waters run deep What you say  
What you do  
You do it all for me and you  
What I do  
And what I say  
I do it all to be this way Every time I hear you breathe  
In the still night next to me  
And your innocent heart to beat  
I feel so complete Just move a little bit closer to me  
No words do we need  
Let your innocent heart beat  
Still waters run deep Chorus
