

Wide Awake and Dead

Orgy

Sleeping with your headphones turned up
Looking like a doll
Pillow talk to solve your problems
Another to break your fall So here we go again
It's a race to cut ties
The mental hopscotch has got us feeling paralyzed
The thrill of the chase
A loveless embrace
A big chance to twist your faith 'Cause you don't care about nothing
Oooo You don't care about anything When it rains it pours
Everybody needs to take a little something for the head (Oohhh)
Does it make you feel better wide awake and dead
'Cause you're acting like a zombie
(Oh wide awake and dead)
Like a zombie The sun is out now before we melt to the ground
And all is said and done
One more chance to think it over
Before the wipe out comes Here we go again (here we go again)
From one fiend to another
We're perfect for each other
The thrill of the chase
A loveless embrace
A big chance to twist your faith 'Cause you don't care about nothing
Oooo You don't care about anything When it rains it pours
Everybody needs to take a little something for the head (Oohhh)
Does it make you feel better wide awake and dead
'Cause you're acting like a zombie... When it rains it pours
Everybody needs to take a little something for the head (Oohhh)
Does it make you feel better wide awake and dead
Cause you're acting like a zombie
(Oh wide awake and dead)
Like a zombie!
Like a zombie! When it rains it pours
Everybody needs to take a little something for the head (Oohhh)
Does it make you feel better wide awake and dead
'Cause you're acting like a zombie
(Oh wide awake and dead)
When it rains it pours
Everybody needs to take a little something for the head (Oohhh)

Does it make you feel better wide awake and dead
'Cause you're acting like a zombie
Ohhh wide awake and dead...
