

# Milk & Alcohol

## Dr. Feelgood

(nick lowe/gypie mayo)White boy in town  
Big black, blue sound  
Night club, I paid in  
I got a stamp on my skinMain attraction dead on his feet  
Black man rhythm with a white boy beat  
They got him on milk and alcohol  
They got him on milk and alcoholStay put I wanna go  
Hard work, bad show  
More liquor, it don't help  
He's gonna die, it breaks my heartI decided eventually  
This ain't doing a thing for me  
They got him on milk and alcohol  
They got him on milk and alcohol - guitar solo -They got him on milk and alcohol  
They got him on milk and alcohol  
They got him on milk and alcohol  
They got him on milk and alcoholGot up, I walked out  
To the car, start it up  
Feel bad, sad night  
I never saw a red lightSirens were a screamin' all around  
I pulled on over and I shut her down  
A black cop gave me a shove with his gun  
Said up against the wall and don't make a run  
They got me on milk and alcohol  
They got me on milk and alcohol
