

# Lately

Matt Cardle

Too long staring at the same page  
Through love and through rage  
I wanna run, wanna stay to say

Get loose, get lucky, get laid  
Have dreams but they fade  
I wanna run, wanna stay to say

Lately  
It will come together  
It will come together  
But my baby  
It's gonna get better  
It's gonna get better

Too long putting on a brave face  
But inside we can't change  
I wanna run, wanna stay to say

Stand down, on your place  
A bitter pip I won't chase  
I wanna run, wanna stay to say

Lately  
It will come together  
It will come together  
But my baby  
It's gonna get better  
It's gonna get better

Lately  
It will come together  
It will come together  
But my baby  
It's gonna get better  
It's gonna get better

Lately  
It will come together  
It will come together

But my baby  
It's gonna get better  
It's gonna get better
