

Teach Me (The Album Leaf Remix) [Bonus Track]

Keaton Henson

Teach me how to love you like I wrote
And say it like I mean it when I don't Teach me how to hold you in my arms
Without squeezing too damn tight and causing harm I'll learn not to look at you with scorn
If you promise to never have been born By all means give me lessons in my ways
But damn it don't expect me to change Mold me to the man that I should be
But don't consider that man to be free How am I expected to behave?
When I'm alone with myself everyday And I'll never love
You enough
My love And I'll never hold
You close
Enough Teach me how to love you like I wrote
And say it like I mean it when I don't
