Praises In Strange Places

Ijahman Levi

In this time I travel
The Earth in a natural style
My livity is that of a prodigal son
I know we're home-ward bound
Still I'm easily found
Often times giving praises
In strange places
In strange places
I'm giving Jah thanks and praises
It's my whish and a given power
That is working in meStill I won't let go
This mission I'm trodding on
Take me as I am flat footed and broken
With a little love sincere
I still find the time to spare
Often times giving praises
In strange places
In strange places
I'm giving Jah thanks and praises
It's my wish and a given power
That is working in meFor the love of me
For what eyes cannot see
I say a little prayer
For guidance around the corner
Never know come what may
What ever it may be
Often time I'm giving praises
In strange places
In strange places
I'm giving Jah thanks and praises
It's my whish and a given power
That is working in me
