## **Put Your Arms Around Me**

## **Texas**

Are you ready maybe

Are you willing to run

Are you ready to let yourself drown

Are you holding your breath

Are you ready or notAre you ready maybe

Do you long to confess

Do you feel that you're already numb

Are you sure of yourself

Would you lie if you're notYou tire me out

Don't wanna let that happen

A secret scream so loud

Why did you let that happenOoh, ooh so put your arms around me

You let me believe that you are someone else

Ooh, ooh cause only time can take you

So let me believe

That I am someone elseMaybe, are you ready to break

Do you think that I push you too far

Would you open yourself

Are you reckless or notYou tire me out

Don't wanna let that happen

A secret scream so loud

Why did you let that happenOoh, ooh so put your arms around me

You let me believe that you are someone else

Ooh, ooh cause only time can take you

So let me believe

That I am someone else

That I am someone elseSha na na na na
