

Nobody but You

Gloriana

Goin' outta my mind again tonight
Lookin' for a little light to shine
And there you are
A midnight moon, a new sunrise
Cannot heave in your eyes
Oh I saw it from the start No, nobody but you
Baby, no-one else can
Love me like you do
No, then we kiss I leave
There can never ever be
Another you for me Steal my soul, steal my kiss
Rock and roll I can't resist
No, I just wanna dance with you
Take my hand, blow my mind
Do it to me every time, no
Not a moment too soon No, nobody but you
Baby, no-one else can
Love me like you do
No, then we kiss I leave
There can never ever be
Another you for me Goin' outta my mind again tonight
Lookin' for a lil light to shine
And there you are No, nobody but you
Baby, no one else can
Love me like you do
No, then we kiss I leave
There can never ever be
Another you for me
