

# Hope

## We Came As Romans

Yeah Sometimes I feel so wrong  
Like I'm being held down  
I feel my heart like a rock, it's sinking  
These days can get so dark  
Like an eclipse in the sky  
But I can rise above  
I can find the light I can run  
I can change all the answers  
Or what I'll hope they'll be I won't stop  
I won't let my own questions  
Fade away in my dreams Don't fade away We won't fall to our knees  
We are the one true hope  
So give me an answer  
Are you in or you out?  
We are the one true hope  
So give me an answer We all fall, crawl out of the fear you're in  
Don't give up  
We won't fall to our knees  
We are the one true hope  
So give me an answer whoa whoa  
So give me an answer, now whoa whoa  
Give me an answer Stand up  
You have a voice to be heard  
You're worth more than words  
So let your fire burn  
Oh, your flame will be lit  
Again when a candle is burned at both ends  
And there's nothing left You can change  
You can become selfless  
You're not set in stone You will wade through mistakes that we all make  
But just hold on Don't fade away (hold on) We won't fall to our knees  
We are the one true hope  
So give me an answer  
Are you in or you out?  
We are the one true hope  
So give me an answer We all fall, crawl out of the fear you're in  
Don't give up  
We won't fall to our knees  
We are the one true hope

So give me an answer We are the one true hope  
So are you with me  
Or will you fall to your knees? We are the one true hope  
So are you with me  
Or will you fall to your knees? We are the one true hope  
We are the one true hope We won't fall to our knees  
We are the one true hope  
So give me an answer  
Are you in or you out?  
We are the one true hope  
So give me an answer We all fall, crawl out of the fear you're in  
Don't give up  
We won't fall to our knees  
We are the one true hope  
So give me an answer whoa whoa  
Give me an answer, now whoa whoa  
Give me an answer
