## Zhaga

my eyes see, why don't you care?  
we are losing, that one last chance

Hey you, don't you see?  
the real and essential things  
hey you, don't you feel?  
disenchanted as we speak

it's in you, it's in you, it's in you... the way to stop all grief

hey you, you're just like me  
sick and twisted living thing  
hey you, on your knees  
don't look up for what you seek

now you will, now you will, now you will...on your knees!

my eyes see, i won't forget  
just deal with, the mess you've made

my eyes see, i won't forget  
I'm losing, that one last bet

hey you, look at me  
and tell me what you get from this  
hey you, does it feed?  
the old broken self esteem

my eyes see, why don't you care?  
we are losing, that one last chance

my eyes see, i won't forget  
i'm healing, the wounds can mend

now you see we're still not dead  
we can take that one last breath and never we drown

---
