

All 'bout The Money

Meja

Some times I find another world inside my mind
When I realize all the crazy things we do
It makes me feel ashamed to be alive
I wanna run away and hide It's all about the money, it's all about the dum dum
And I don't think it's funny to see us fade away
It's all about the money, it's all about the
I think we got it all wrong anyway Strange ways of showing how much we really care
When in face we don't seem to care at all
This pretty world is getting out of hand
So how come we fail to understand? It's all about the money, it's all about the dum dum
And I don't think it's funny to see us fade away
It's all about the money, it's all about the
I think we got it all wrong anyway
