

Master plan

Willie Williams

I've got a master plan babe,
I been workin on it from the start.
Pluggin in all of the numbers, watchin it on all of the charts.
Just cause it starts off slow babe,
Doesn't mean it don't have a heart.
You'll be walkin round showin off someday
And it'll take you right back to the start.
It's everything that you want babe.
It's everything that you need.
Soft and warm al the time, make you want it over and over.
Strong on the horizon,
But ends up bein really so sweet... oh so sweet.
Sometimes I wanna lay down babe.
Sometimes I wanna stand up and fight.
Sometimes it runs its course in a day.
Sometimes it goes for night after night.
Know that it will start off strong babe,
And it will end up weak in the end.
Just like the heart you break of a love babe,
Just like the hand you take of a friend.
It's everything that you want babe.
It's everything that you need.
Soft and warm all the time, make you want it over and over.
Strong on the horizon,
But ends up bein really so sweet...oh so sweet...
