

# Please Come In

## Black Stone Cherry

I have looked out my window  
And you know she's no longer there  
There's an angel standing in her place, well she won't care  
Couldn't be that easy for her to say goodbye  
Please come in, don't pretend  
Like the girl I had before  
Please come in, don't pretend  
I don't wanna hurt anymore  
It must be the time for me to leave it behind  
'Cause there's a new day out there  
Where the sun will always shine  
Please come in, don't pretend  
Like the girl I had before  
Please come in, don't pretend  
I don't wanna hurt anymore  
If you look out your window  
And there's an angel there  
I hope she plays a guitar  
With flowers, flowers in her hair  
Please come in but don't pretend  
Won't you please come in?  
Listen baby  
Please come in, don't pretend  
Like the girl I had before  
Please come in, don't pretend  
I don't wanna hurt anymore  
Please come in, don't you pretend
