

Bigger Than Love

The New Velvet

Bigger Than Love

All this time you were in front of me, and all I did was look right through
Then you showed up from outer space, straight off of a crescent moon
and when I fell in love with you, I started seeing us in the stars like a constellation
and this is the story of a girl and a boy who traded home for the unknown

Chorus

I got a plan so if you wanna get away
I got a van we could drive out to the milky way
It's 2am, you know we could do anything
Woah woah woah, ooh, and everyday
We'll be makin' it up, living off of love
And crazy enough, to take it to the stars
If we know what we got, and what we got is us
Then we're bigger than love, bigger than love, bigger than love

Play that record from younger days, the one that used to make you cry
You never thought we could leave this place, now I'm thinkin' we could try
Cause when I fell in love with you, I started seeing us in the stars like a constellation
This is our way out, do you get what I'm sayin' when I say

Chorus

I got a plan so if you wanna getaway
I got a van we could drive out to the milky way
it's 2am, you know we could do anything
Woah woah woah Ooh and everyday
We'll be makin' it up, livin off of love
And crazy enough, to take it to the stars
If we know what we got, and what we got is us
Then we're bigger than love, bigger than love, bigger than love

I love it when I hear you singing my favorite songs when I'm trying to sleep
And you say to me get up lets go now, we got the stars
And that's bigger than us
Bigger than love, Bigger than love

Chorus B (x2)
