Save the Robots

Institute

Save robots
Save yourselves
Keep your head to the future boy
For everything it's worthI didn't mean to collide with you
We fell so far from earthNo guru
No system
No mantraSave robots
Save your friends
Try a little selfless
Try whatever worksNo guru
No system
No mantra
No mantraSo don't you try me
You'll never find me
I was here before
You're never found me thenNo guru
No system
No mantra
No mantra
No mantra
No mantraSave the robots
Save the robots
Save yourselves
Save yourselves
Save yourselves
