

# Save the Robots

## Institute

Save robots  
Save yourselves  
Keep your head to the future boy  
For everything it's worth I didn't mean to collide with you  
We fell so far from earth No guru  
No system  
No mantra Save robots  
Save your friends  
Try a little selfless  
Try whatever works No guru  
No system  
No mantra  
No mantra So don't you try me  
You'll never find me  
I was here before  
You're never found me then No guru  
No system  
No mantra  
No mantra  
No mantra  
No mantra Save the robots  
Save the robots  
Save yourselves  
Save yourselves  
Save yourselves
