

# We're Gonna Dance

## Cody Jinks

I've been gone for way too long  
And I've been working way too hard  
And I know it's taken it's toll on you  
But tonight I'll make things right  
By the fire with some candle light  
And I'll tell you what we're gonna do

Chorus:

We're not going out we're gonna stay right here at home  
They're wont be anyone in the world when we are all alone  
We're gonna lay the worries back and love until we're back on track

If you just give me this chance

Move the couch

Lock the door

Socks move well on a hardwood floor

And we're gonna dance

We're gonna dance

Rush of life can get you down  
If you let it, it runs you to the ground  
But that's just life

Chorus

We're gonna dance
