Empty Spirits

The Madden Brothers

Scanning the bar, just empty spirits
Turn to say "Hi!" nobody hears it
Terrible lights, but they got good music hereFeeling so strange from a night with a stranger
Bent a few rules but never found danger
Missing the nights when we used to sit right hereI'm still waiting, same old playlist
I can't take this song
When lilac wine comes on
I lose it, damn this music
What's that feeling gone?
When lilac wine comes onThe first time we met, I still remember
You sitting alone one night in December
But it wasn't cold, cuz they got good weather hereSo we drove downtown to a place we had heard of
Waited in line, even though it was empty
You said it's a dive, but they play good music hereI'm still waiting, same old playlist
I can't take this song
When ilac wine comes on
I lose it, damn this music
Was that feeling gone?
When lilac wine comes on, comes onI'm still waiting, same old playlist
I can't take this song
When lilac wine comes on
I lose it, damn this music
Was that feeling gone?
When lilac wine comes on
Comes on, comes on
