

Material

Yellow Second

you know it's always difficult to trace
the subtle expression moving on your face
this side of you i haven't ever seen before
asking me if i ever want something more
i do
there's melody in everything you say striking a chord with me that i can't play
all cares suspend
from start to end
of your simple symphony the sound is clear
refrain sincere
"do you feel the same as me?"
i do
