

Save Us

Dream Evil

You are the chosen one
to battlefield you're ready to go
Sail away to the land of the damned
Survive from the dragon's claws You're the one to save our lord
(You've got to fight! Kill 'em all!!) You have that special gift
that's given from above
You are stronger than the gods
A warrior of flesh of blood You're the one to save our lord
(You've got to fight! Kill 'em all!!)
There's no one else but you
who can conquer the beast Save us, and bring back the heart
our future lies upon your arms;
Save us, you know that you must
tomorrow might never show up;
You got to fight We put our faith in you
we pray for you to win this fight
You are our only hope
complete your task and come back alive You're the one to save our lord
(You've got to fight! Kill 'em all!!)
There's no one else but you
who can conquer the beast Save us, and bring back the heart
our future lies upon your arms;
Save us, you know that you must
tomorrow might never show up Sailing away, to unknown land
Now is the time, to face the demons
Tracking it down, I'm ready to fight
Sharpen my sword, to slay the dragon Save us, and bring back the heart
our future lies upon your arms;
Save us, you know that you must
tomorrow might never show up Save us, and bring back the heart
our future lies upon your arms;
Save us, you know that you must
tomorrow might never show up;
tomorrow might never show up!
