

# Dog and His Master

## Marcy Playground

Hey little boy see the Johnny and Jane's  
Hey little boy you see them all go insane  
Look and see Spot run 'cause he pissed in their hallway  
Run Spot run, run away from it all And I say, "You can be  
Any way that you wanna be  
How I'll be, that's up to me" Hey little girl see them all run around  
Hey little girl you see them all tumble down  
Johnny will boss, Janey will buy  
Spot will beg but everyone dies As I said, "You can be  
Any way that you wanna be  
How I'll be, that's up to me" One little, two little, three little idiots  
Four little, five little, six little idiots  
Seven little, eight little, nine little idiots  
All in suit and tie One little, two little, three little idiots  
Four little, five little, six little idiots  
Seven little, eight little, nine little idiots  
All dressed up to die And I say, "You can be  
Any way that you wanna be  
But how I'll be, that's up to me"
