

In The Rainy Season

Strapping Young Lad

drive, he's trying,
to tempt me, take me, down me, rape me, fuck her...
fuck yourself, you'll never take me live, goddamn this sun,
go, he's not the one
take this away... july, july, july
bring me rain. drive, keep calm,
these are only just illusions
and whatever has been said
it has now gone completely wrong
but keep your head, don't freak...
keep your eyes upon the road,
and just don't think about that room... oh holy fuck
oh holy fuck, oh holy fuck goddamn this heat
christ, goddamn this shit
take this away... july, july, july
bring me rain
