Sundance

Podunk

I watched the sun come up today
It was exciting
You should have seen it all go down
Right in front of me
It all went down in front of meFrom the clovers came a little song
You know their numbers made it strong
I danced with them to waste sometime
You know they are some friends of mine
We danced together for sunshineLittle beads of water on my back
Taken from the pine
D-O-G barked as if to say
He thinks it's time
We danced together in the sunshine!Sunshine, sunshine, sunshine
Sunshine, sunshine, sunshine
Sunshine, sunshine, sunshine
