

It Was Fear of Myself That Made Me Odd

[Alexisonfire](#)

Spinning, arms spread
And crushing the tops of mountains with my hands
As I dive into the Pacific, I flood the shorelines
And I exhale causing the oceans' endless waves
As I emerge and shaking the wreckage from my hair with my hands I want to breathe life into the Dead Sea
As this rain forest falls beneath my knees
I want to breathe life into the Dead Sea
Below, where is your boat?
You are slow, you are slow I will play, the sky is black
Breathe in all the air
Exhale and choke the land with carbon
From where I stand
I can see the curvature of this earth
And I want to make it flat
