

Sunday Flower

Eyeshine

Can't figure out the way you are
It's like I'm chasing after stars
You hang your shoulders on the moon
I guess it's time your leaving soon

You tone down
Don't frown
You're Outta town
And Ya Come around

Your eyes like fire they burn me up
This time I know I've had enough
The page we spent has left me sour
And now you're gone my Sunday flower

You tone down
Don't frown
You're Outta town
And ya Come around

Anyways these are timeless days
Please don't fade away I guess I'll see you next Sunday
don't get caught in the down slide
