

Damn

Bellefire

[Ciara:]

Is it any wonder
Why I'm sitting here waiting for you to call?
I can see the future disappear
Through my fingertips
I let it slip out of grip
When we could have it all
And all this darkness
Going round and around in my head[All:]

Damn

Things got out of hand
I thought you'd understand
When words don't say enough
But maybe I just said too much

Damn

I promised not to cry
But now I've done the last thing that
I meant to do

Damn[Cathy:]

Can you forgive and let it go?
I wish I could take it back
But all my strength is gone
I was so careless I know
Oh my stupid pride
I let it slide
I can't deny

That it's me who let you down
And is all this madness
Going round and around in your head?[All:]

Damn

Things got out of hand
I thought you'd understand
When words don't say enough
But maybe I just said too much

Damn

I promised not to cry
But now I've done the last thing that

I meant to do

Damn[Ciara:]

And all this darkness
Going round and around in my head
And all this madness
Going round and round
Damn
