

Was It Just The Wine

Vern Gosdin

Yeah, we laughed and talk and joke a while
Yeah, we drank a few
Yet, I waltz across the dance floor with you
Did we look each other in the eye
Did we see a sign?
Did we fall in love or was it just the wine?
Or was it just the wine
That made me break right down
And cry with the blues
Or was it just a memory of someone
Before you're tellin' me we're through?
Did I hold your body close to mine?
Did we make promises till the end of time?
Did we fall in love or was it just the wine?
Or was it just the wine
That made me break right down
And cry with the blues
Or was it just the memory of someone
Before you're tellin' me we're through?
Did I hold your body close to mine?
Did we make promises till the end of time?
Did we fall in love or was it just the wine?
