

You Still Take Me There

[Collin Raye](#)

In case I haven't told you lately
Just in case it doesn't show
I'm still enchanted by you, baby
And I just wanted you to know You were the first one
And you'll be the last one
You are the only one, I swear You took me to heaven
Our first night together
And you still take me there Whoa, I just to have you in my arms tonight
Oh, how could I ask for more?
You give me hope and strength
You give me life
Your love is all I'm living for You were the first one
And you'll be the last one
You are the only one, I swear You took me to heaven
Our first night together
And you still take me there You take me higher
Than I ever dreamed I'd go
With you I leave the worries
Of this troubled world below You took me to heaven
Our first night together
And you still take me there Oh you took me to heaven
Our first night together
And you still take me
Darlin,' you still take me
Baby, you still take me
There
