

Love Her

Walker Brothers

Love her
and tell her each day
that girl needs to know

tell her so, tell her everything I couldn't say

Like she's warm, and she's sweet and she's fine, Oh love her like I should have done. And hold her, and show her you care. When her world is blue see her through any time that she needs you be there, by her side, be the guy that I couldn't be and love her, love her for me.

Please love her, love her for me. Hold her, and show her you care, when her world is blue see her through any time that she needs you be there, by her side, be the guy that I couldn't be and love her love her for me. Yeah, c'mon love her, love her for me.
