Solid Air

John Martyn

You've been taking your time And you've been living on solid air

You've been walking the line

And you've been living on solid air

Don't know what's going 'round inside

And I can tell you that it's hard to hide

When you're living on solid airAnd you've been painting the blues

And you've been looking through solid air

You've been seeing it through

And you've been looking through solid air

Don't know what's going 'round in your mind

And I can tell you don't like what you find

When you're moving through solid air, solid airI know you, I love you

And I can be your friend

I can follow you anywhere

Even through solid airYou've been stoning it cold

You've been living on solid air

You've been finding it cold

You've been living on solid air

I don't know what's going on inside

I can tell you that it's hard to hide

When you're living on solid air, solid air You've been getting too deep

You've been living on solid air

You've been missing your sleep

And you've been moving through solid air

I don't know what's going on in your mind

But I know you don't like what you find

When you're moving through solid air, solid airI know you, I love you

I will be your friend

I will follow you anywhere

Even through solid airYou've been walking your line

You've been walking on solid air

You've been taking your time

But you've been walking on solid air

Don't know what's going on inside

But I can tell you that it's hard to hide

When you're living on solid air, solid airYou've been painting the blues

You've been living on solid air

And you've been seeing it through

And you've been looking through solid air
I don't know what's going 'round in your mind
But I can tell you don't like what you find
When you're living through solid air, solid airI know you, I love you
And I can be your friend
I can follow you anywhere
Even through solid air[Incomprehensible] solid air
[Incomprehensible] solid air
