Make Up Your Mind

The Secret Handshake

This whole thing started bout two years ago
It seems like everything was going great
And then one day I thought i saw a note
It said hey, it was nice meeting you just give me a call
And everything after that just seemed so rough
It seemed like things were changing oh so quickly
And right there before my eyes everything changed tonight
Whoa, whoa-whoa-whoa,whoa-oh
Girl do you wanna run around?
Just gonna let me down
Just like you do, whoa
I don't wanna wait around
I need to stand my ground
And get outta town, whoa, whoa
And it was then that I know we were through
And she said something like "boy your crazy
You'll never ever get a girl like me"
That's fine, it's time, alright, i know i'm doin just fine

Girl do you wanna run around?
Just gonna let me down
Just like you do, whoa
I don't wanna wait around
I need to stand my ground
And get outta town whoa
[x2]It was over from the start
Now everything is in the dark
It was over from the start
And nothing's changin, changin, changin whoa
[x2]Girl do you wanna run around?
Just gonna let me down
Just like you do, whoa
I don't wanna wait around
I need to stand my ground
And get outta town whoa
[x2]
